

Flowzone uses several different mounting styles for their holster accessories. I have reached out to FZ for clarification but not received a response, so I encourage you to visually confirm what you need. In the event that I hear back from FZ I will update this document.

Note - I have given them names which may be different from what Flowzone calls them.

Please confirm what you need so I can address it prior to shipping your order. I do have a 30 day return policy and am happy to exchange or refund if you do not like it or get the wrong one. Shipping costs are not eligible for refund or reimbursement unless the unit is defective or I shipped the wrong part.

If you have questions or concerns please email me at brian@nanohawk.com or call 281-557-6200x3. I'm happy to discuss or look at photos. You can also text 281-557-6200 which may be faster than calling. One other thing.... I do not regularly monitor Facebook and especially FB Messenger - I may or may not see messages or tags there or replies to posts, please use email for support or call/text. Thanks

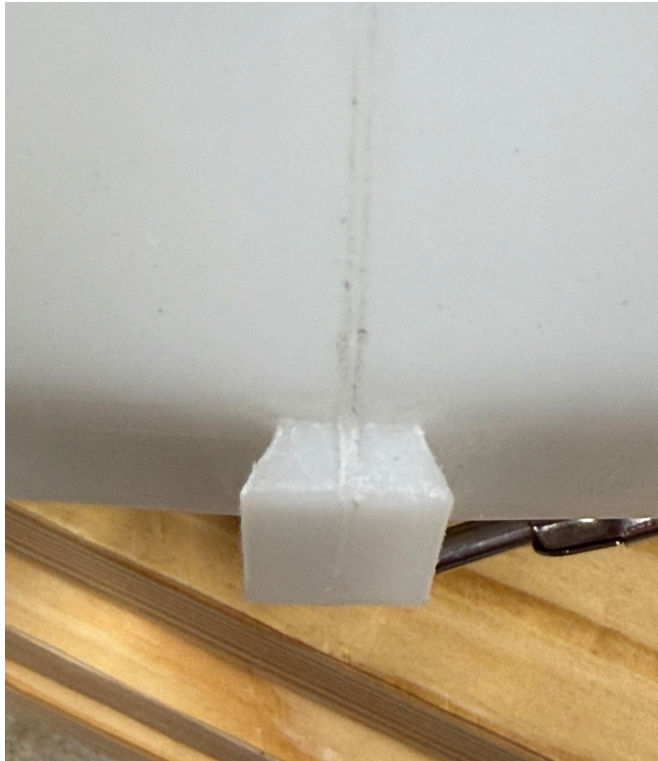

Lower Holster Mount (aka the cup)

Series 2 (the tab)

Series 2.5 (narrow wedge)

Series 3 (wide wedge)

Swap Tank (flattened Y)

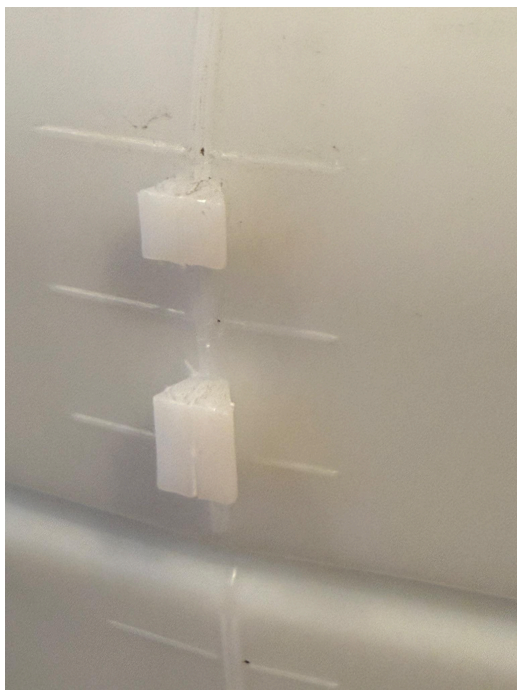

Upper Holster: (aka the keeper)

Series 2 (the tab)

Series 2.5 (2 piece narrow wedge)

Series 3 (wedge meets tab)
